

1	Introduction	1
1.1	Why conduct Initial Environmental Examinations?	1
1.2	Environmental Integration for optimum benefit	3
1.3	Consultation	3
2	Screening	5
2.1	Undertaking the Screening	5
2.1.1	Satisfying formal (legal) requirements	5
2.1.2	Best Practice for Screening	6
2.2	Environmental Screening Document (ESD)	7
3	Terms of Reference for IEEs	7
3.1	Preparation of Terms of Reference	7
3.2	Approval	8
4	Preparing initial environmental examinations	10
4.1	Assigning the work	10
4.2	IEE Team Formation	10
4.3	Preparation of work plan	10
5	Desk Review	12
5.1	Secondary Sources of Information	12
5.2	Initial interaction and consultation	12
5.3	Information Summary	12
5.3.1	Project Information	13
5.3.2	Environmental information	13
5.3.3	Desk Comparison	13
5.4	Selection of methods and techniques	14
5.4.1	Tailoring the method/tool	14
5.5	Detailing workplan	17
6	Field work	18
6.1	Field Equipment	18
6.2	Geographical Boundary	18
6.3	Conducting the survey	18
7	Analysis and interpretation	20
7.1	Identification of Impacts	20
7.1.1	Basic Framework and main tasks	20
7.1.2	Project Description	20
7.1.3	Evaluation of Environmental Setting	21
7.1.4	Candidate Impacts	21
7.2	Impact Prediction	21
7.3	Significance assessment	22
7.4	Mitigation measures and Environmental Monitoring Plan	23
7.4.1	Mitigation Measures	23
7.4.2	Monitoring Plan	24
8	Report preparation, review and approval	26
8.1	Report Format and Production	26
8.2	Review	28
8.3	Approval	28

ANNEX A. Methods and tools for initial environmental examinations	29
Checklist	29
Interaction Matrix	30
Overlay Mapping	31
Network	31
Simulation Modelling	32
Which method/tool to use?	32

List of Tables

Table 1 : Major activities and Responsibilities in conducting IEEs
Table 2 : IEE criteria for rural roads and associated works, as per Environmental Protection Rules
Table 3 : Situation where an EIA is required for a rural road and associated activities
Table 4 : Environmental Screening Document (ESD)
Table 5 : ToR format for an IEE of a district road (based on the provision of EPR)
Table 6 : Format for IEE workplan
Table 7 : Checklist of possible environmental features
Table 8 : Comparison chart for different route options
Table 9 : Sample of simple interaction matrix for rural road
Table 10: Sample public notice
Table 11: Environmental features and their assessment
Table 12: An indication of probable mitigation measures for rural road in hills
Table 13: Portion of a questionnaire checklist
Table 14: Portion of a descriptive checklist
Table 15: Impact network for vehicle movement
Table 16: IEE tasks and relative usefulness of methods/tools

List of Abbreviations

CBO	Community Based Organisation
DDC	District Development Committee
EIA	Environmental Impact Assessment
EPA	Environmental Protection Act
EPR	Environmental Protection Rules
ESD	Environmental Screening Document
GIS	Geographical Information System
HMGN	His Majesty's Government of Nepal
IEE	Initial Environmental Examination
MBT	Main Boundary Thrust
MCT	Main Central Thrust
MoLD	Ministry of Local Development
NGO	Non-Governmental Organisation
NR	Nepalese Rupees
ST	Screening Team
ToR	Terms of Reference
VDC	Village Development Committee
