

(1F) ARAMP Practical

Presentation for LRN Training

***Laxman Bhakta Dahi Shrestha/Mitra Bahadur Shrestha,
Central Asset Management Specialist/LRN Engineer***

August 2016

The attached file is the first draft of Excel template for a typical YR-2 (2014/15) ARAMP using Version-2 of the Pilot guidelines. The data is in rough first-entry form and has generated a lot of 'red warning cells'. In accordance with the Guidelines all red cells either need to be corrected or an explanation provided in the Report justifying the departure.

Your task is to start reviewing the Draft ARAMP with the view to putting this in shape ready for Report preparation and presentation to DDC Body. You need to look out for points of missing logic (e.g. are there any un-trafficable roads on which maintenance is planned), check that sorting has been correctly performed and mainly address each red cell as follows:

- 1. Identify the red cells (working from beginning), explore the reasons for the 'warning' and note this,*
- 2. Explore solutions to remove the red warning cell,*
- 3. If you consider the 'departure' correct provide a suitable example explanation for the Report,*
- 4. Complete this exercise for each complete Excel Sheet before moving to the next (and see how far you get)*

Table 3.2.1 Length of routine and recurrent maintenance (km)

All roads should receive routine/recurrent maintenance unless they are in a non-maintanable condition or will be under periodic maintenance / improvement

RED: Coverage is less than 80% of road length for relevant surface type

#	Code	Existing length (km)	Existing Black Top (km)	Existing Gravel (km)	Existing Earthen (km)	Routine maintenance (km)	Recurrent maintenance (blacktop) (km)	Recurrent maintenance (gravel) (km)	Recurrent maintenance (earthen) (km)
	Total	219.15	82.45	129.85	6.85	206.00	62.45	123.65	6.85
1	04DR001	19.20	3.00	16.20	-	19.20	3.00	16.20	-
2	04DR002	17.00	4.05	12.95	-	17.00	4.05	12.95	-
3	04DR003	14.10	0.50	11.60	2.00	14.10	0.50	11.60	2.00
4	04DR004	9.50	5.50	4.00	-	9.50	5.50	4.00	-
5	04DR005	-	-	-	-	-	-	-	-
6	04DR006	4.00	4.00	-	-	4.00	4.00	-	-
7	04DR007	17.00	7.65	9.35	-	17.00	7.65	9.35	-
8	04DR008	11.00	3.20	7.80	-	11.00	3.20	7.80	-
9	04DR009	16.15	9.35	3.45	3.35	3.00	9.35	3.45	3.35
