

Care of RAP3 Property. How to enforce?

Presentation for RAP3 Senior Technical Management Course

Member of Groups 3:

Mr. Dipendra Adhikari

Mr. Harihar Bhandari

Mr. Mohan Ruwali

Mr. Ramesh Neupane

Mr. Yam Nath Bhattarai

September 2016

Construction Equipment (WB)

- ❖ Orientation/Regular awareness to users like RBGs/SBGs.
- ❖ Regular monitoring by Wheel barrow mechanics/STS/loW and to restrict use in damage condition
- ❖ Losses due to SC/RBG/SBG's carelessness should be treated by considerable reduction in their respective IPCs

Construction Equipment (WB) Contd..

- ❖ Arrangement of Sufficient spare parts in DTA/Site Store in advance of at least 5-6 months
- ❖ Ensure transfer of used tools as well as WBs to RBGs after works completion.
- ❖ Distribution as per requirement and return to store after completion of given task

Construction Material (Gabion boxes, Geo-textile, etc.)

- ❖ Main storekeeper (DHQ) should be hired from RAP3 is appropriate,
- ❖ Frequent tracking (consumption Vs balance) of materials by IoWs also,
- ❖ Night watchmen required at DTA/Site stores (to prevent from theft by local, UCs, contractors, etc.), priority to the house/land owner
- ❖ Temporary fence bars required for huge and open storage,
- ❖ Proper orientation on usage of both materials by site demonstration.
